ENTERPRISE

MINING | REHABILITATION | ENERGY

## **CAPABILITY STATEMENT**

# MINING SERVICES

---

**With some of the best partners in the Industry, Olive Branch continues to serve leading names in the mining sector.**

## **100% Aboriginal Owned**

Olive Branch Enterprise is dedicated to supporting the communities which we represent and operate within. Our company goals envisage training programs which are designed to provide work experience for local Aboriginal people.

## **From Start to Finish**

From the beginning of mine life through to closure, we aim to provide a complete range of services that display our core value of excellence. Some of these services are:

- Engineering and Planning
- Drilling
- Site Clearance
- Plant Hire
- Work Service Crew
- Workwear and PPE
- Earthworks
- Civil Construction
- Logistics and Haulage
- Waste Management
- Venue Management

# REHABILITATION

---

**As a company, we pride ourselves on the attention that we put into our care for country. Rehabilitation is at the heart of what we care about.**

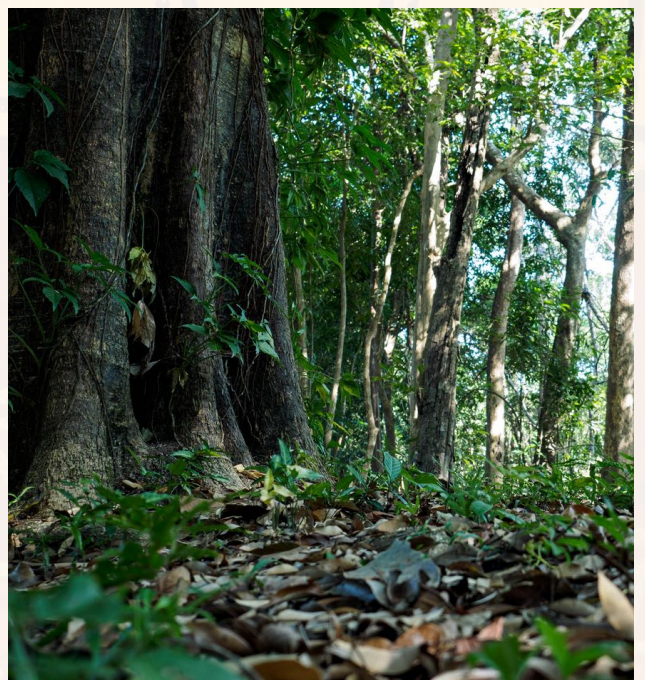

## **Detailed and Comprehensive**

We have taken strides to find partners in the rehabilitation space that provide comprehensive services to restore any damaged land back to its original condition.

- Geological Engineering
- Studies and Reporting
- Environmental Engineering
- Civil and Earthworks
- Seed Collection
- Replanting Native Seeds

## **Best in the business**

Our main partners in the rehabilitation space are Okane - who leverage over 25 years of international experience in mine closure and waste management to bring about a carefully tailored solution that will reflect your values, risk tolerance and will be sure to address your biggest challenges.

# ENERGY

---

**We believe in building a sustainable future through the use of renewable energy forms.**

## **Next generation solutions**

Sustainable energy is not just a priority for our company but is a way for us to help preserve this land for the next generation. We aim to supply renewable energy solutions at competitive rates while not compromising on the level of excellence in our delivery.

## **Planning for the Future**

We partner with companies who have multi-skilled and vastly experienced teams that operate to industry standards. We provide complete end-to-end support including engineering design, project and construction management, system maintenance, monitoring and technical services for renewable and alternate power systems of any size and scale.

- Brooks Hire
- Green Powertel

## Rehabilitation

- Moorda Maia
- Red Dirt
- Okane
- Ekwa
- HGS Australia

## Energy

- Alternate Energy
- Joorndoo (CDI Energy)

# OUR LAND

---

## Our Story

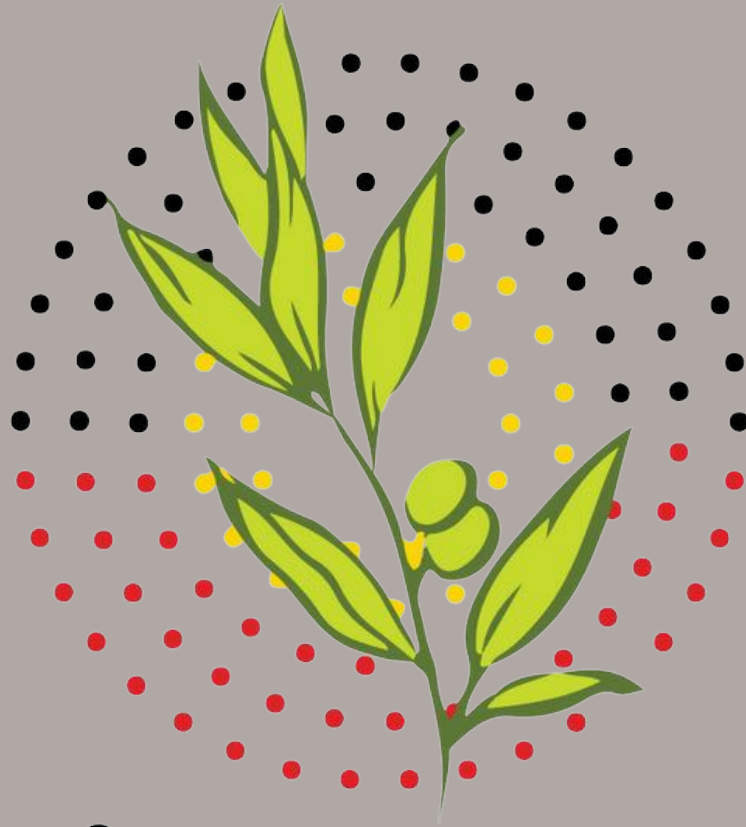

Long ago when everything was right in Kapurn country, everyone lived together in harmony. One day a stranger visited the lands of the Kapurn peoples. Then one night when everyone was sleeping the stranger had stolen one of the Kapurn elders wife. He had taken her and run away. When morning had come the elder realized his wife had been stolen by the stranger. The Kapurn had took off in search of his wife. He chased the man and his wife all around the country, over the hills, through the lakes and found they had camped in the caves at night - still he chased them. When he had finally gotten close to them, he sneaked up on him and shot the bad man with his spear and killed him. The bad man had turned into an emu, went up into the night sky and when he had died, his blood turned to Gold and his gold blood spilled all over Kapurn Country. This land has now come to be known as the Goldfields.

The land that my elders walked upon stretches from Kalgoorlie to Kambalda West to Mt Holland, Burracoppin to follow the circumcision line. Southern Cross, North of Trayning / Kalannie and back around to around Kalgoorlie. This land we call Kapurn land. My people speak Kaalamaya Language, and our man/tribe is Kapurn

**-Noelene Walley (Founder)**
