**OLIVE BRANCH RESOURCES**

**MINING SERVICE CONTRACTORS**

**CAPABILITY STATEMENT**

"Paving a pathway for the next generation"

Simon Shin, CEO

## ABOUT US

---

Olive Branch Resources is a 100% Aboriginal owned Mining Service Contractor and a subsidiary of Olive Branch Enterprise.

Founded by Timothy Champion Snr. in 2019, currently owned and operated by the Champion family and representing the Marlinyu Ghoorlie Claim Group, Olive Branch Enterprise (OBE) began as a commercial entity to provide a variety of products and services to companies working within the borders of our land.

In 2021 a shift in company direction meant that OBE would now focus more on mining services and related activities. This shift led to successful partnerships and joint ventures being formed with companies such as Brooks Hire, DRD Group, Okane Rehabilitation and more.

In 2023 it was decided that OBE would remain an entity focused on giving back to the Aboriginal community, and Olive Branch Resources (OBR) would be founded with the intent of specifically operating as a mining service provider.

This is the same year OBE made it to the final 4 (out of thousands of nominees) for the Telstra Best of Business Award 2023.

Since then OBR has continued to grow, winning multiple significant contracts with companies such as Tulla Resources, Ida Minerals, Trio Resources, Beacon Minerals and more.

Our goals are building to provide mining services for the highest tier of mining companies while maintaining our vision to continue working with OBE to give more back to the Aboriginal community.

# MARLINYU GHOORLIE - OUR STORY

Long ago when everything was right in Kapurn country, everyone lived together in harmony. One day a stranger visited the lands of the Kapurn peoples. Then one night when everyone was sleeping the stranger had stolen one of the Kapurn elders wife. He had taken her and run away. When morning had come the elder realized his wife had been stolen by the stranger. The Kapurn had took off in search of his wife.

He chased the man and his wife all around the country, over the hills, through the lakes and found they had camped in the caves at night - still he chased them. When he had finally gotten close to them, he sneaked up on him and shot the bad man with his spear and killed him. The bad man had turned into an emu, went up into the night sky and when he had died, his blood turned to gold and his gold blood spilled all over Kapurn Country. This land has now come to be known as the Goldfields.

The land that my elders walked upon stretches from Kalgoorlie to Kambalda West to Mt Holland, Burracoppin to follow the circumcision line. Southern Cross, North of Trayning / Kalannie and back around to around Kalgoorlie. This land we call Kapurn land. My people speak Kaalamaya Language, and our man/tribe is Kapurn

**-Noelene Walley (Founder)**

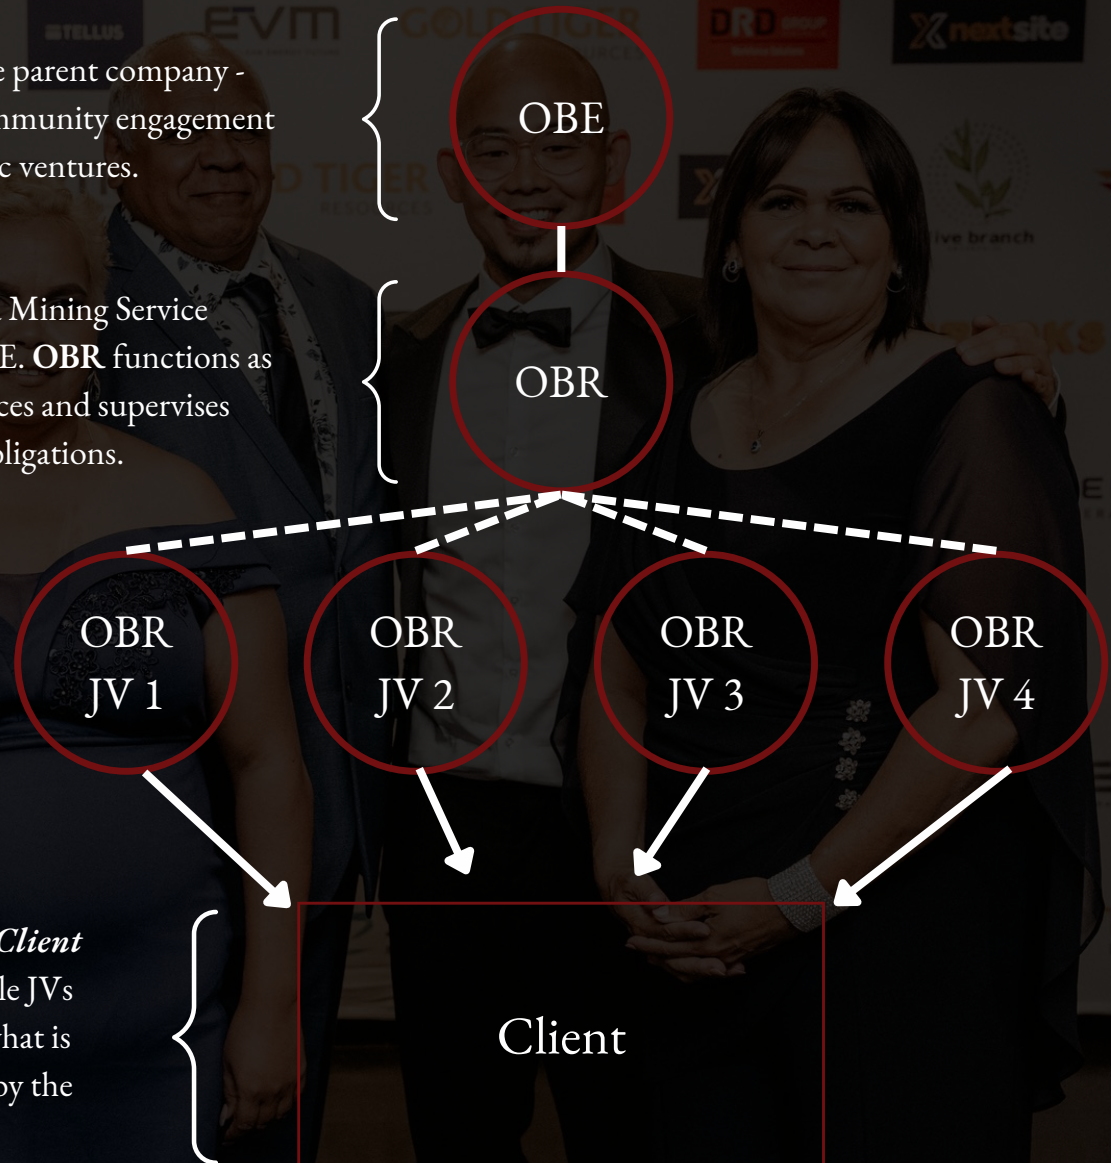

# CORPORATE STRUCTURE

*Olive Branch Enterprise* is the parent company - primarily used for Aboriginal community engagement and other philanthropic ventures.

*Olive Branch Resources* is a Mining Service Contractor and subsidiary of OBE. OBR functions as a hub for Mining related services and supervises contract fulfilment obligations.

OBR has *Joint Ventures* and strategic alliances with its partners. These are 51% owned by OBR and therefore are Aboriginal businesses - contributing to a client's Aboriginal engagement. These *JVs* provide specific capability and experience required by different contracts.

Our joint ventures then provide services to the *Client* directly in order to fulfil their requests. Multiple JVs may work on a single contract depending on what is required. Operational supervision is provided by the experienced JV partner.

# MINING SERVICES

---

## General Mining Operations

Mining Operations are the bread and butter of our company. From mine-site design and planning through to the construction of facilities and support systems, extraction, processing and transportation. We offer a start to end solution and can tailor it to your needs.

## Civil Earthworks & Infrastructure

We can provide all the equipment necessary to transform your site however you require. From demolition to ground work, roadworks, earthmoving and more we have both the manpower and machinery to make it happen.

## Drill & Blast

In this highly specialised field, it's important to partner with the right people to get the job done effectively and safely. Our team has vast experience in this industry and brings the capability required when it comes to creating blast patterns, executing the drilling and explosive handling.

# MINING SERVICES

---

## Logistics & Haulage

Finding a cost effective and reliable way to transport ore, machinery or other potentially dangerous goods can be a challenge. We have fleets of vehicles with the latest safety and tracking technology as well as operators who abide by the highest safety standards to make sure that your product gets to its destination on time.

## Shutdowns

Shutdown services form the basis of mine-site safety and operational efficiency. We have the right team for the job in both mobile and fixed plant shutdowns. Our service includes both planning and maintenance and bears with the industry's stringent safety requirements.

## Equipment Hire

We have an extensive variety of machinery, plant and equipment available for hire. On top of that we have an experienced team of operators. If we don't have the equipment you are looking for then our partners can easily source it for you and have it on site as soon as possible. We have everything from light vehicles, heavy earthmoving equipment, heavy transports, ground treatment vehicles, specialised machinery and more.

## Labour Hire

Having the right personnel for the job is critical for success. Our labour hire team sources both white and blue collar professionals from a national database and passes them through rigorous criteria to make sure you have the right people working for you. On top of this our team specialises in Indigenous labour hire to help contribute to the growth of our local communities.

# MINING SERVICES

---

## Facilities Management

We have teams to operate and maintain campsite facilities. From laundering to cleaning, cooking, security, general management and more - we have a broad range of experts to handle any size campsite.

## Rehabilitation

Caring for country is one of our passions, we take care of the planning, engineering, studies and correct revegetation of damaged land to make sure that it does not just heal but flourishes post mine life.

# OUR TEAM

---

**James Champion**

*Chairperson*

James Champion is a respected Elder who is an Applicant and a member to the Marlinyu Ghoorlie Claim Group. James has lived most of his life in the Kalgoorlie / Goldfield Region and knows the country intimately. With over 30+ years of experience within multiple high profile companies in the mining industry, James has been an integral part of the success of Olive Branch Resources.

**Simon Shin**

*Chief Executive Officer/Managing Director*

Simon started working with Olive Branch Enterprise in 2018 and has been an spokesperson for the Champion family since. He has dedicated his work to the Aboriginal community and has ensured that success, equality and equity grow in the community. Simon originally committed to a journey in eradicating suicide and has made the Aboriginal Community a priority. He works with multiple Aboriginal Country Owners in WA and has a history in management positions. In a short time Simon has grown OBR significantly.

**Noelene Walley**

*Chief Financial Officer*

Noelene Walley is a respected Elder and member to the Marlinyu Ghoorlie Claim Group. She is an experienced Training Assessment Educator who has resided in Kalgoorlie for over 35 Years. With so much love and passion for her country, her people and her culture, Noelene embarks on this journey to help educate all those that reside, work and benefit from her Native Title Land ensuring that true Aboriginal culture is present in all that she does.

## OUR TEAM

---

**Danielle Champion**  
*Chief Operations Officer*

Danielle is an artist who brilliantly represents her culture in the Goldfields. With artwork showcased all around Kalgoorlie, Danielle has translated stories from elders to her paintings. Danielle is also the Chief Operations Officer and uses her entrepreneurial gifts to build Olive Branch Resources, as well as to promote the Aboriginal ways and inspire the Aboriginal Community to believe they can achieve great things and that no dream is too small.

**Jonathan Quay**  
*Chief Strategy Officer*

Jonathan has been working with Olive Branch Resources for the last few years and in that time has contributed significantly to the vision and values of the company. Jonathan comes from a background of directing a real estate business and prior to that serving on the executive teams of multiple organisations. He is passionate about helping the Aboriginal community, decreasing the suicide statistic and being an ambassador for good mental health.

## OUR PARTNERS

Our partners form a crucial aspect of our business. While, as a company, OBR may be quite young - we have made sure to partner with industry experts who have vast experience in their specific areas.

These partnerships are the basis of our capability - and so we take extraordinary measures to ensure that the partners we have possess the same goals and the same standard of excellence that we exemplify to all our clients.

One thing that all of our partners have in common is their desire to give back to the Aboriginal people and the local community. When partnering with us, we provide avenues for them to create employment opportunities and career pathways, provide funding for local infrastructure, raise awareness about pertinent issues, up-skill and train the next generation - and plenty more.

# OUR COMMITMENT

---

## Careers

OBR is committed to building career pathway opportunities for Aboriginal people both within our company and with our partners. We are committed to, wherever possible, hire members of the Aboriginal community.

## Training and Education

Working with our partners, RTOs and labour hire companies - we provide opportunities for members of the Aboriginal community to up-skill through further training and education. This may be done on the job, or in the classroom depending on the training required.

## Entrepreneurship

OBR aims to support individuals within the Aboriginal community that are looking to start their own business. We provide training, support and partnership opportunities to small businesses so that they may have platforms for growth.

## Indigenous Charity Support

We aim to constantly be giving to Indigenous charity groups in order to support local initiatives that benefit the community.

## Aboriginal Products and Services

We work together with local Aboriginal business' and individuals so that we can either refer their services or on-sell their products directly to clients. This ranges from Artwork through to the provision of PPE and more.

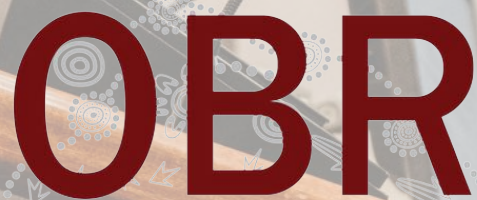

## Supporting Aboriginal Business

OBR seeks to bring local Aboriginal companies into our projects and integrate them whenever possible. Providing this level of exposure to small companies can often mean the difference between success and failure. We honour all our partners who took a chance on us, and we aim to pay that forward to as many young Aboriginal companies as possible.
